" We are **experts** in Intellectual Property "

We are Intellectual Property experts

DAUDÉN was established in 1999 in Alicante, the capital of Intellectual Property (IP) in Europe.

We don't practice all areas of the law. That's not our model. DAUDÉN is a boutique law firm specializing in a full range of IP services, with an emphasis on trademarks and designs. We offer tailored, high-quality legal services for innovators and entrepreneurs.

Our firm originates from Gómez-Daudén, a law and tax consulting firm with more than forty years of experience in providing comprehensive legal advice to Spanish and foreign companies.

We speak fluent... Intellectual Property

The wide range of the firm's clientele, as well as the international nature of IP matters, often require the ability to operate comfortably in different languages. Thus, our team presently includes professionals who are fluent in Spanish, English, Italian and French.

Our IP expertise meets your creativity

Our firm's most important assets are our highly qualified professionals and staff members. Excellent credentials and experience meet pragmatic, accessible advisory skills.

Our multidisciplinary team enable us to offer meaningful, in-depth advice in all legal IP related matters.

All of our lawyers must comply with the respective codes of professional conduct issued by the relevant professional bodies and will carry out your engagement with professional care, skill and attention.

Our lawyers have wide-ranging expertise in matters of civil law as well as litigation and criminal law. They are admitted to practice both before the Spanish Patent and Trademark Office and the Spanish courts. Moreover, most of them are entitled to represent our clients before international bodies, such as EUIPO, WIPO and EPO.

Modern IP firm for changing times

We are the face of a modern IP law practice. Our firm is built to provide smart, lightweight, flexible and client focused IP legal services. We rely on technology, specialization and quality professionals to provide practical and affordable legal services to our clients.

✔ You create, we protect

We strategically protect and enforce your patents, trademarks, designs and other IP rights, always with a professional and client-focused approach. We are committed to serving you professionally and ethically. Our aim is to enhance the businesses of our clients and to maximize their competitive advantage, by assisting them strategically to capture, develop and commercially exploit their intellectual assets.

✔ We are dedicated to excellence in IP

In our work for clients and foreign associates, we strive for the highest degree of quality and service. We are creative, responsive and nimble. Whether it's registering a trademark, representing our clients in design litigation, drafting IP agreements, or any other legal service we provide, we bring a tailored approach and a value-added relationship. We have earned the trust of our clients and associates with expert advice and proactive approach at affordable rates.

✔ Our business is understanding Yours

A lawyer is responsible for managing the relationship with each client. The responsible lawyer may delegate aspects of the work to the most appropriate professional staff member, taking into account the level of expertise and technical specialization required for each matter. Where clients have large or diverse portfolios, we may establish a specific client team which will be responsible for your work under the overall supervision of the lawyer in charge.

✔ We don't want to be bigger, but we strive to be better

We deliver cost-effective legal services. Our size provides us with the opportunity to commit to personal and high quality relationships, ensuring a professional and financial flexibility appreciated by our clients.

We are a modern paperless firm. We thoroughly embrace the technological changes occurring in the legal industry. We call, meet, email, chat, and tweet our clients.

IP Prosecution and Litigation in one Firm

Our work covers trademarks, patents, designs, copyrights and all other forms of IP. We provide the full spectrum of services relating to such IP, including consultancy in relation to IP strategy, filing and prosecution of applications for IP rights in Spain and abroad, together with litigation.
